

Curriculum overview

We will be learning about growing from young to old and that our needs change as we grow. We will learn the names for our body parts, the difference between males and females and that some body parts are private. We will be able to identify different types of touch, how they make people feel and who to go to if we feel worried.

Key vocabulary

Different	Not the same as one another
Unique	One of a kind and unlike anything else.
Similar	Having something in common with something or someone else.
Privacy	Not shared with others.
Consent	Giving permission for something to happen.
Physical contact	The act of touching physically e.g. body to body.
Safe	To be protected from things.

Our topic is...

Growing Up

Sticky knowledge

- Using scientific names for body parts is ok and can help to keep you safe.
- People grow from young to old.
- Body parts covered by underwear are private.
- Happy surprises are ok and secrets that make you feel uncomfortable are not ok.
- You can get help from any adult in school, a police officer and a friend.

Counting kisses

Are these kisses good touches? How can you tell?
What body language shows us the baby is happy?
What would it be like if she didn't like the kisses?

Listen to the PANTS song.

This helps us remember how to stay safe.

Mister Seahorse

How do they care for their eggs and babies?
How do humans protect their offspring?
